

THE MATHEMATICS EDUCATION SESSIONS

This study experience will enable students to discover how mathematics is put into practice at Disneyland Paris. The Study Experience content has been developed by the UK's leading provider of curriculum-led educational resources, in conjunction with subject teachers and senior managers at Disneyland Paris to provide a unique insight for students. During the three Study Experience topics will be covered from key curriculum areas. The curriculum topics are brought to life and students are encouraged to view their visit to the resort as a total learning opportunity.

Session One – Maths In Action

Case study 1- Roller Coaster Maths

Case Study 2- Maths in action in the resort

Session Two – Architecture and Theme Park Operations

Case study 3- Maths and Architecture

Case Study 4- Maths and Theme Park Operations

Session Three – Finance and Market Research

Case study 5- Financial Mathematics and Statistics

Case Study 6- Market Research and Statistics

All students will receive a workbook which will link the education sessions to their studies and Disneyland. The Educational sessions will take place throughout the first two days. For further information look at the website

THE MATHEMATICS STUDY EXPERIENCE DISNEYLAND PARIS

The EXPERIENCE

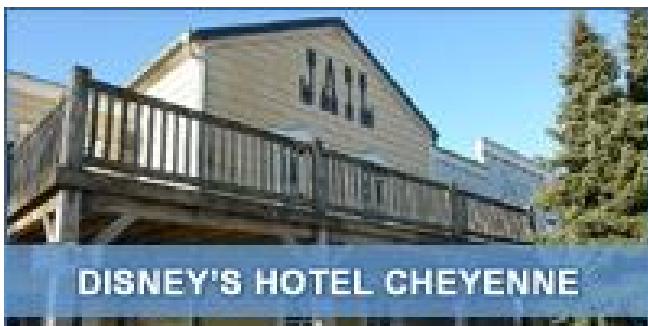

THE MATHEMATICS STUDY EXPERIENCE ITINERARY

DAY ONE

- Depart from Atatürk airport, Istanbul and arrive in Paris at approximately 1:00 pm.
- Once in France, the journey from Paris to Disneyland will take about 2 hours.
- On arrival at Disneyland Paris, we will be met by the Study Experiences Resort team, who will assist with the check in at Hotel Cheyenne
- A tour of Disneyland Park and Walt Disney Studios. Followed by a buffet dinner at the hotel
- Ice skating in the evening

DAY TWO

- After breakfast students will attend their first two Mathematics sessions
- Students will enjoy unlimited access to both Disneyland Park and Walt Disney Studios, Throughout the day, as well as enjoying all the attractions and parades in both Disney Parks, students will be able to complete the practical assignment projects included in their workbook, which will assist them in linking their classroom studies and the education sessions' content to their own "real- life "experiences at Disneyland
- To finish the day we will have dinner at King Ludwig's castle

DAY THREE

- After breakfast we will depart for Paris. There will be a short tour of Paris and then we will go to the Eiffel tower
- The students will then have lunch and then go on seine river cruise followed by a visit to Eiffel Tower
- We will then return to Disneyland for Buffalo Bill's Wild west show

DAY FOUR

- After breakfast we will load the coach ready for our transfer to Paris and our return flight to Istanbul
- There will be the final Mathematics session
- Students will have more time in The Disney land Parks
- We will arrive in Istanbul on Thursday

Disney's Hotel Cheyenne is set in an Old West themed town, complete with a saloon.

The hotel features rooms with a double bed and a bunk bed, the Chuck Wagon Café restaurant and the outdoor play area Fort Apache.
