

Turkish Newsletter

Dear Parents,

I, Miss Hatice, I hope you had a great summer, would like to share with you the programme for your children for the coming weeks. During this first term of the academic year, the Turkish lessons have been very busy. Please find below a mind map, which describes the topics covered in Turkish for each year.

For the Turkish native speakers I am designing specific resources, focusing on the key skills of **reading** and **writing**. If you would like any more information on the programme designed by me for native speakers, do not hesitate to contact me. h.girgin@bisistanbul.org
