

## **BISIMUN**

By Alara Liz Coban

This year BISI held its first MUN conference. Despite many people's concerns on how this event would be held, the conference was a tremendous success. From just attending the conference, it was very clear how the executive team worked extremely hard to make the conference run as smoothly as possible. Our senior students worked extremely hard for months before the conference and the result was an amazing three days.

From the last day, I heard many experienced debaters talk about how this MUN was the most fun out of all of the ones they went to. Even during the speeches during the closing ceremony, student officers remarked on how this conference would be an experience they will never forget. I would agree with this myself. Amongst the debating and resolutions, the friendly atmosphere helped create strong friendships. The people I met within these three days have become very good friends of mine.

The whole event was wrapped up with a dinner party in Tarabya. Good food, good company and karaoke resulted with delegates and chairs singing Bohemian Rhapsody and other classics. Shoutout to BISIMUN's official Instagram @bisimun and the hilarious story, mystery of the cupcake (featuring a dead Ashton).

Overall, the whole experience was a very memorable one. As are all the other people who attended BISIMUN, I look forward for the upcoming conferences.
